VEX-E1501R

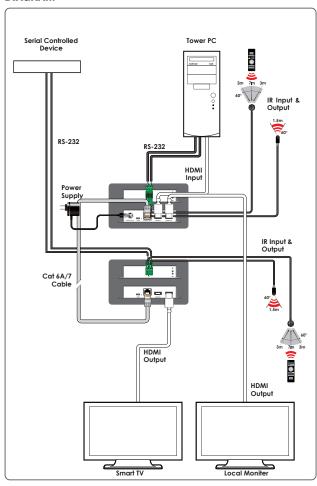

This Receiver is new generation of HDBaseT 3.0 technology, it is a great solution for extending uncompressed HDMI 2.0 4K@60 (4:4:4, 8-bit) video as well as control via a single run of Cat.6a/7 cable over distances of up to 40 meters. Multiple control and data signals may also be transmitted along with the video, including IR and RS-232. This Receiver is ideal for any scenario which needs uncompressed video like medical equipment, conference room, education and anything you want to extend.
